

# Crystalbrite Low Temp Laundry Oxy Stain Remover Liquid

**CRYSTAL BRITE**

Excellent stain removal when washing at low temperatures.

Complies with EN 1276 and EN 1650, when used at 40°C

Helps to keep colours looking bright and fresh.

10L | CRLTD/10

A highly concentrated, stain removing laundry liquid designed specifically for use at low temperatures. Based on phalimido peroxyhexanoic acid, this formulation is gentle on fabrics and is suitable for use on both coloured and white fabrics. Has broad antibacterial, yeasticidal and fungicidal activity when used at 40°C.

Saves energy and reduces wash times when washing at 40°C or below, as the water does not need to be heated for as long as a higher temperature wash.

**This product is specifically designed for use at low temperatures. For best results use between 20-40°C.**

## Directions for use

For professional use only.

1. To be used in the main wash stage at a dose between 6-8ml per kg dry weight laundry.

Can be used through an autodosing programme on larger machines, or manually dosed into the dispensing drawer.

## Product Info

Colour: **White**

Fragrance: **None**

pH: **3.5 – 4.5**

Shelf Life: **24 Months**
