

Osmos Glass Renovator Liquid

Description

A highly alkaline detergent specially formulated to renovate glasses, removing protein and fatty films which cause clouding. Effective in both hard and soft water conditions, and at low temperatures. Special ingredients prevent scaling of the dish washing machine even in hard water areas. Highly concentrated formulation gives greater economy in use. This product is not suitable for use on aluminium or polycarbonate.

Directions For Use

The product is designed for use only with the Cleenol Automatic Dosing System in glass washing machines. May be used for 1 - 2 days per week as a replacement for the usual glass wash product to renovate glassware. Use rate is dependent upon water hardness and will be set by our engineers at approximately 2 - 4 ml product per litre of rinse water.

Do not use for hand dishwashing.

Product Codes

OSM-GRL-2X5

Storage

Store in cool conditions away from direct sources of heat.

Avoid extremes of temperature.

Do not allow to freeze.

Ensure the cap is tightly fitted after use.

Keep out of reach of children.

Shelf Life

Shelf life 24 months, if stored as recommended.

Use within 6 months of opening.

Environmental

Neat product will cause damage to plant and animal life.

Do not allow large quantities of neat liquid to enter surface waterways as serious ecological damage may be caused.

In the event of a large spillage, contact the local water authority or Environment Agency immediately.

This product uses recyclable packaging.

Notes

It contains no NTA or EDTA.
